Srichakra Admin Portal

1. Design Philosophy

- **Role-Based Access Control (RBAC):** Each admin sees only what they need
- **Self-Service Configuration:** Business teams can configure without developer help
- **Real-Time Visibility:** Live dashboards with actionable insights
- **Audit Trail:** Every action is logged for compliance

---

2. Admin Roles & Hierarchy

3. Role Definitions & Permissions

3.1 Super Admin (IT/System Administrator)

Primary Responsibility: System configuration, user management, integrations

Permission	Access Level
User Management	Full CRUD
Role Configuration	Full CRUD
System Settings	Full Access
API Configurations	Full Access
Audit Logs	View All
Data Export	Full Access
Form Builder	Full Access
Notification Templates	Full CRUD

3.2 Procurement Head

Primary Responsibility: Strategic procurement decisions, supplier approvals

Permission	Access Level
Supplier Approval	Final Approval
Account Manager Assignment	Full CRUD
Rate Card Management	Approve/Publish
PO Approval (High Value)	Approve
Supplier Reports	Full Access
Debit Note Override	Approve

3.3 Account Manager

Primary Responsibility: Supplier relationship, improvement plans, training

Permission	Access Level
Supplier Onboarding	Initiate/Track
Improvement Plans	Create/Assign/Track
Training Schedules	Create/Manage
Supplier Communication	Full Access
Sub-Supplier Verification	Approve/Reject
Field Officer Assignment	Manage

3.4 Field Officer

Primary Responsibility: On-ground supplier visits, evaluations, audits

Permission	Access Level
Supplier Evaluation	Create/Submit
Photo/GPS Capture	Full Access

Permission	Access Level
Sub-Supplier Registration	Create
Training Attendance	Mark/Record
Improvement Verification	Update Status

3.5 Operations Head

Primary Responsibility: Plant operations, QC oversight, logistics

Permission	Access Level
QC Reports	View All
Debit Note Approval	Final Approval
Logistics Management	Full Access
Inventory Reports	Full Access
Gate Entry Override	Approve

3.6 QC Manager

Primary Responsibility: Quality control, contamination assessment

Permission	Access Level
QC Entry	Full CRUD
Contamination Photos	Upload
Debit Note Generation	Create/Submit
Material Grading	Full Access
Dispute Resolution	Handle/Escalate

3.7 Finance Head / Accounts Payable

Primary Responsibility: Payments, ledger, financial compliance

Permission	Access Level
Payment Processing	Approve/Execute
Ledger View	Full Access
Invoice Generation	Create
Bank Details Verification	Approve
Financial Reports	Full Access

---

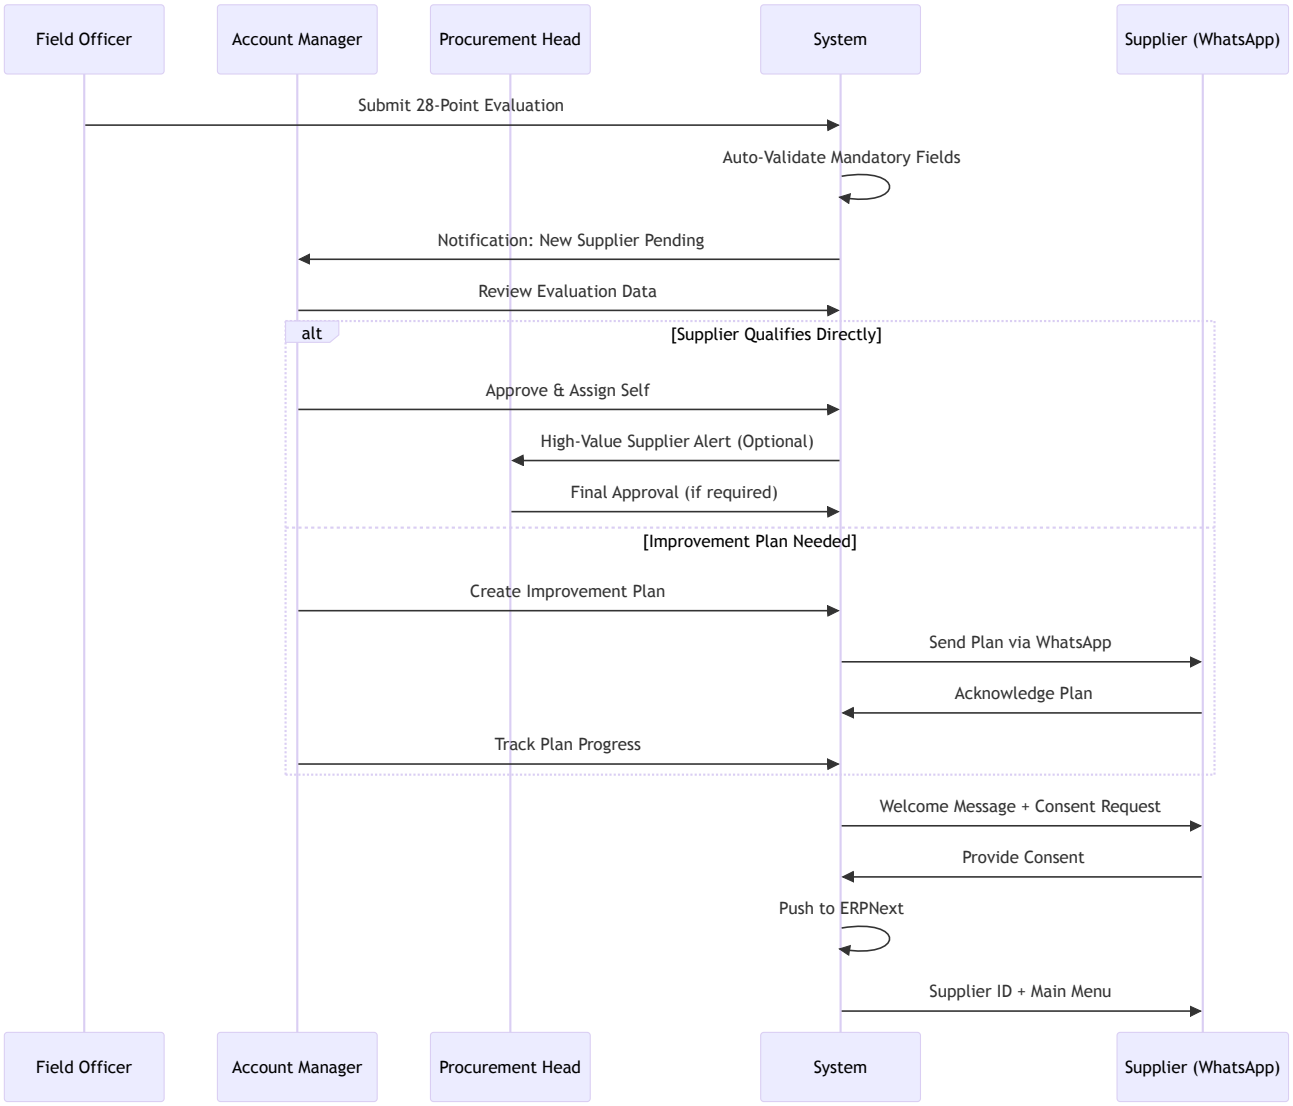
5. Core Use Cases & Workflows

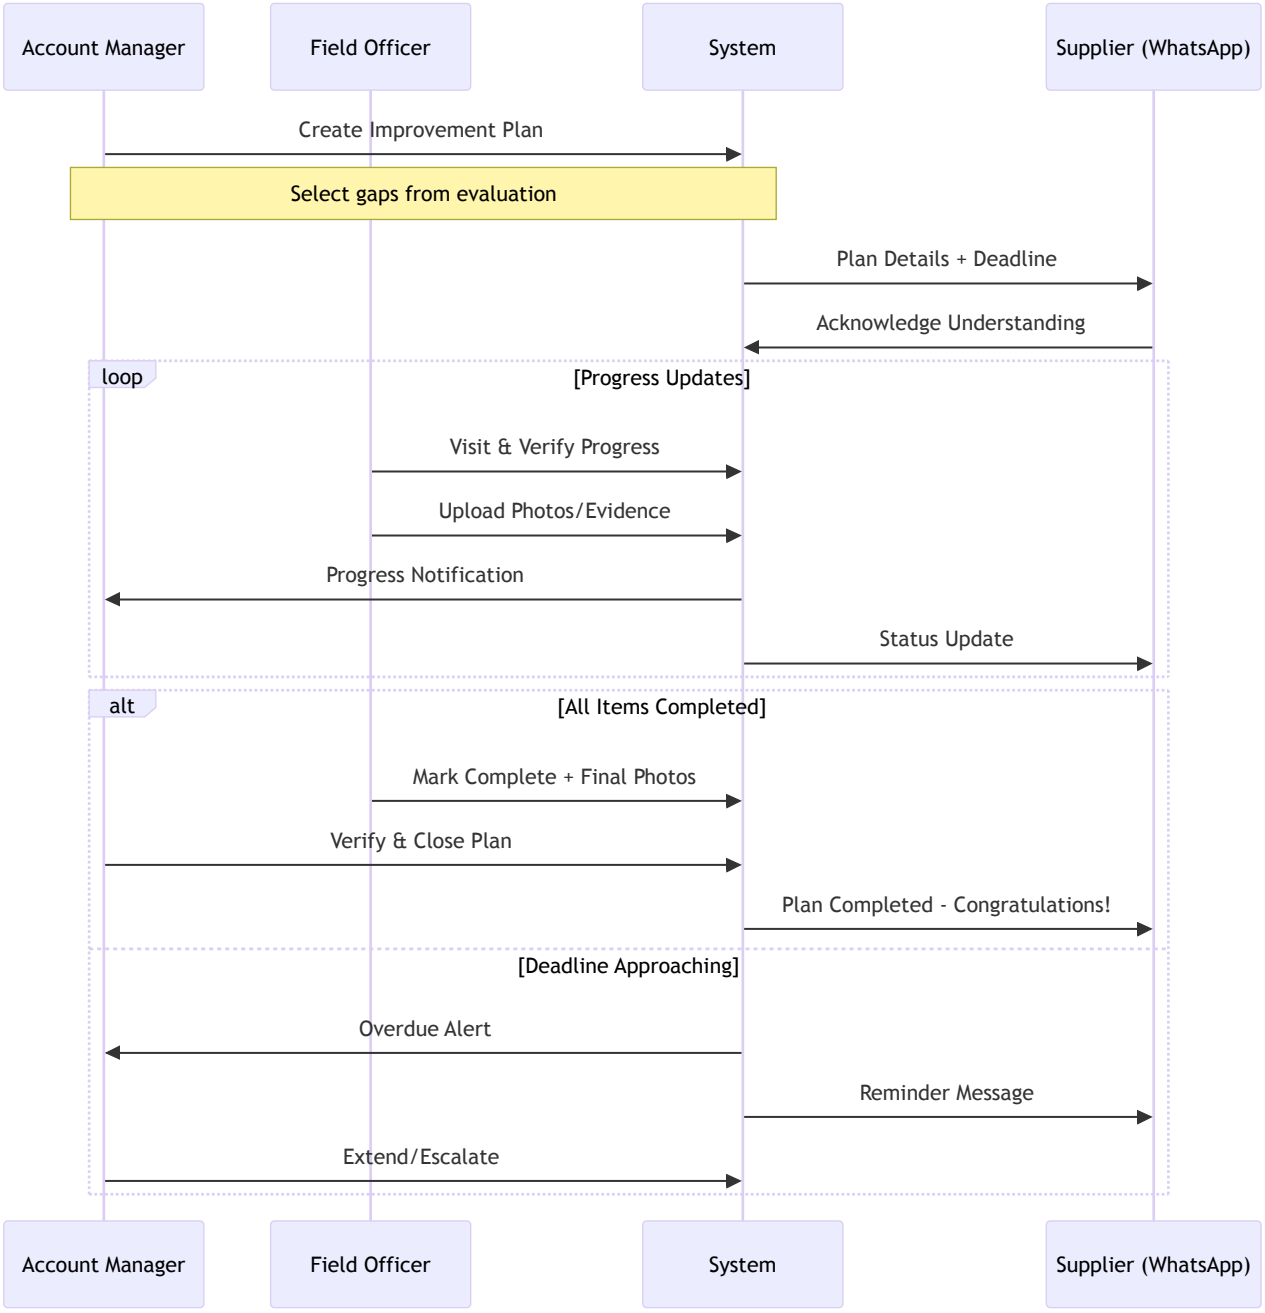
5.1 Supplier Onboarding Approval Flow



5.2 QC & Debit Note Approval Flow

```
Parse error on line 20:
...al Approval        end    end    SYS
----------------------^
Expecting 'SPACE', 'NL', 'participant', 'activate',
'deactivate', 'title', 'loop', 'opt', 'alt', 'else', 'par',
'note', 'ACTOR', got 'end'
```

5.3 Improvement Plan Management Flow



6. Configuration Modules (Self-Service)

6.1 Form Builder

Purpose: Admins can create/modify evaluation questionnaires, audit checklists, and training feedback forms without developer involvement.

```

- **Search & Filter:** By name, location, tier, status, account manager
- **Bulk Actions:** Assign account manager, schedule audits, send notifications
- **Supplier Profile:** Complete 360° view with transaction history, QC reports, improvement plans
- **Sub-Supplier Network:** Visual network graph showing tier relationships

7.2 Audit Calendar Management

- **Calendar View:** Monthly/weekly view of all scheduled audits
- **Bulk Scheduling:** Schedule audits for multiple suppliers by region/tier
- **Auto-Reminders:** System sends reminders to field officers and suppliers
- **Audit History:** Complete audit trail with scores and improvement tracking

7.3 Training Program Management

- **Training Calendar:** Schedule and manage training sessions
- **Attendance Tracking:** Mark attendance via mobile app or WhatsApp
- **Feedback Collection:** Automated feedback forms post-training
- **Impact Reports:** Track improvement metrics post-training

7.4 Dispute Resolution Center

- **Dispute Queue:** All open disputes with SLA timers
- **Evidence Review:** Side-by-side view of QC photos and supplier claims
- **Resolution Workflow:** Approve, modify, or escalate disputes
- **Historical Analysis:** Pattern detection for repeat disputes

7.5 Reports & Analytics

Report Type	Description	Access Level
Supplier Performance	Quality scores, volume trends, dispute rates	All Managers
Procurement Summary	Daily/weekly/monthly procurement volumes	Procurement Head

Report Type	Description	Access Level
QC Analytics	Contamination trends, debit note patterns	QC Manager
Financial Reports	Payments, outstanding, aging analysis	Finance Head
Traceability Reports	Sub-supplier network, source tracking	Procurement Head
Audit Compliance	Audit completion rates, improvement tracking	Account Manager
User Activity	Login history, action logs	Super Admin

8. Mobile App for Field Officers

8.1 Key Features

```
┌──────────────────────────────────────────────────────────────────────────────────────┐
│  📱 FIELD OFFICER MOBILE APP
│

```

8.2 Offline Capabilities

- **Form Caching:** Evaluation forms work without internet
- **Photo Storage:** Images stored locally, synced when online
- **GPS Capture:** Location stamps even in low-connectivity areas
- **Background Sync:** Automatic sync when connection restored
- **Conflict Resolution:** Smart merge for simultaneous edits

---

9. Integration Points

9.1 ERPNext Integration

Data Flow	Direction	Trigger
Supplier Master	SSMP → ERP	On Approval
Purchase Order	ERP → SSMP	On PO Creation
QC Report	SSMP → ERP	On QC Approval
Debit Note	SSMP → ERP	On Acceptance
Payment Status	ERP → SSMP	On Payment
Ledger Data	ERP → SSMP	On Demand
Inventory Levels	ERP → SSMP	Real-time

9.2 WhatsApp Business API

- **Template Messages:** Pre-approved templates for notifications
- **Interactive Buttons:** Accept/Reject, View Details, Call Back
- **Media Messages:** Photos, PDFs (QC reports, ledger statements)
- **Language Detection:** Auto-select based on supplier preference

9.3 Logistics Partner APIs

- **Vehicle Availability:** Real-time vehicle options
- **Pricing:** Dynamic pricing based on distance and load
- **Booking Confirmation:** Instant booking with tracking ID
- **Tracking:** Live tracking shared with supplier

9.4 Payment Gateway

- **Payment Processing:** Bank transfers to supplier accounts
- **UTR Generation:** Automatic UTR capture and notification
- **Reconciliation:** Daily reconciliation with ERP

---

10. Security & Compliance

10.1 Data Privacy

- **Consent Management:** Explicit consent before data collection
- **Data Encryption:** All PII encrypted at rest and in transit
- **Access Logs:** Complete audit trail of data access
- **Right to Deletion:** Supplier can request data deletion

10.2 Access Control

- **Session Management:** Auto-logout after inactivity
- **IP Whitelisting:** Optional for sensitive roles
- **Two-Factor Authentication:** Mandatory for Super Admin, Finance
- **Role-Based Permissions:** Granular access control

10.3 Audit Trail

Every action is logged with:

- User ID
- Timestamp
- Action Type
- Before/After Values
- IP Address
- Device Information

---

11. Supplier-Initiated Actions Summary

Action	Trigger	Admin Notification	Approval Required
Book Logistics	WhatsApp Menu	Operations	No (Auto)
View Ledger	WhatsApp Menu	None	No

Action	Trigger	Admin Notification	Approval Required
Raise Dispute	QC Report	QC Manager	Yes
Accept Debit Note	QC Report	Finance	No (Auto-process)
Add Sub-Supplier	WhatsApp Menu	Account Manager	Yes
Request Call Back	Any Menu	Account Manager	No
Download Documents	WhatsApp Link	None	No
Update Bank Details	Account Menu	Finance	Yes (OTP + Approval)
